

# Adventure Island® Accessibility Guide

---

We're glad you're here! This guide provides an overview of services and facilities available for guests with disabilities who are visiting Adventure Island®. We are committed to providing a safe and enjoyable environment to all guests. Please refer to Guest Services if you have any questions.

**At Adventure Island® we have programs in place to assist guests with disabilities. Our Ride Accessibility Program (RAP) matches the individual abilities of our guests to the requirements of each ride. When enrolled in the RAP, guests with disabilities will be able to participate in our Special Access Program which assists guests in enjoying attractions throughout the park as some queue lines are not accessible to mobility-impaired guests. These programs are described below.**

**NOTICE:** The information in this guide is subject to change without notice. You may also contact an ambassador regarding accessibility prior to boarding a particular attraction.

# General Park Information

## Contact Information

**Questions or Comments?** Adventure Island® strives to ensure all guests, including those with disabilities, have a safe and enjoyable experience. If you have questions or comments, please stop by Guest Services during your visit, call (813) 884-4FUN or email [AlGuestServices@SeaWorld.com](mailto:AlGuestServices@SeaWorld.com).

## Guest Services

Guest Services is located just inside the Park Entrance.

## Parking

Parking is provided directly in the parking lot near the main entrance. Most spaces for guests with disabilities are accessible to vans.

## Wheelchair Rental

Wheelchairs may be rented at Guest Relations located just inside the Main Entrance. Wheelchairs are rented on a “first-come, first-serve” basis.

## Segway/Walkers as Wheelchairs

SeaWorld Parks & Entertainment® is committed to providing guests a safe and enjoyable experience. Because of different pathway configurations and terrain, as well as large crowds that includes small children and strollers; we regret that we cannot permit the use of two-wheeled, self-balancing electric vehicles such as Segways. Additionally, walkers are not permitted to be used as a substitute for a wheelchair or electric convenience vehicle (ECV). We are pleased to offer standard wheelchairs and we encourage you to contact Guest Services with any questions you may have.

## Restrooms

All restrooms are accessible to guests using wheelchairs and are marked with the wheelchair symbol throughout the park. Companion/Family Assist restrooms are located at:

- Duval Street Restrooms (located adjacent to Colossal Pizza)
- Castaway Falls Restroom (located adjacent to Riptide and Castaway Falls)

## First Aid

Adventure Island's® First Aid facility is located in the front plaza near the main entrance. This facility is staffed by Registered Nurses and/or Emergency Medical Technicians. Ambassadors throughout the park can call for assistance upon request.

## Restaurants

While dining at our restaurants, please be aware that most venues offer cafeteria-style service. For guests with special dietary needs, we offer a variety of allergy friendly options throughout our park. You may stop by any of our meal facilities, to receive more detail on our Allergy Friendly program and culinary options for those guests with allergies. For questions before you visit, please contact us at <https://adventureisland.com/park-info/allergen-information/>. We also suggest you visit meal facilities during non-peak hours or ahead of mealtime so that you can be efficiently assisted and served. Guests looking for a quieter dining environment are encouraged to visit meal facilities during non-peak hours or ahead of mealtime.

## Gift Shops

All gift shops are wheelchair accessible. Please ask any Ambassador for assistance.

## Service Animals

Service Animals are welcomed at SeaWorld Parks & Entertainment facilities. Service animals are limited to dogs and miniature horses that have been individually trained to do work or perform tasks for the benefit of an individual with a disability.

Service animals must remain on a leash or harness and under the control of its handler at all times and be house broken. If at any time your service animal's behavior is out of control, you will be asked to remove your service animal from the premises. Service animals are not permitted in pools, rivers, or other water attractions. They must remain at least 10 feet from the water's edge.

Please be aware that Service Animals are not permitted on any attraction at Adventure Island®.

### **“Break” Area for Service Animals**

Locations inside the park are notated on the park map.

## Hearing Impairment Services

Adventure Island® is pleased to provide several options for our guests who may be deaf, hearing impaired, or require additional assistance for communications disabilities.

Qualified American Sign Language (ASL) interpreters are available upon request. We kindly ask that you request this service at least 14 business days prior to your visit.

Please contact us by calling (813) 884-4FUN or by emailing [ALGuestServices@SeaWorld.com](mailto:ALGuestServices@SeaWorld.com) with “ASL Interpreter Request” as the subject.

## Visual Impairment Services

If you need assistance during your visit, we can provide park guidance. We encourage you to request this service at least 14 business days prior to your visit. Please contact us by calling (813) 884-4FUN or by emailing [ALGuestServices@SeaWorld.com](mailto:ALGuestServices@SeaWorld.com).

Every effort will be made to provide guidance with less than two (2) weeks' notice, depending on the availability of Ambassadors. Guests requesting this service will be contacted prior to their visit and specified guide times will be confirmed. The guide will be provided for the first two (2) hours of your visit.

Guests who are blind or have limited/low vision must have someone (either a companion or Ambassador) read the ride instructions prior to boarding.

## Ride Access Information

At Adventure Island®, safety is the only consideration that takes precedence over fun! Thrill rides, by their very nature, create forces and speeds that may not be acceptable or tolerable to some guests and may cause injury to some riders with known or unknown pre-existing conditions.

Many theme park rides incorporate safety systems designed by the manufacturer to accommodate people of average physical stature and body proportion. These systems may place restrictions on the ability of an individual to safely experience the ride. In general, you should ride only if you are in good health. Do not ride if you know or suspect you may be pregnant, have high blood pressure, heart, neck or back problems, motion sickness, recent surgery, or any other medical condition that may be affected by the features of the ride. You should not ride if you have any impairment or condition that would prevent the intended use of seating as provided or inability to follow any safety requirement.

In order to ride, guests must be able to maintain the proper riding position throughout the ride and brace themselves, keeping their head upright and their back against the tube of the raft. Guests must be able to use the restraint device properly and be able to hold on tight and keep their hands, arms, legs, and feet down and within the confines of the tube or raft at all times. Guests must be able to demonstrate a willingness and ability to comply with verbal and written rider requirements. The rider requirements and health restrictions are listed at the entrance of each ride.

Guests with casts or braces will be restricted from riding certain rides where the cast or brace may present a hazard to the guest or others. Please consult with our Guest Services staff or a ride attendant for more information or if in doubt about your ability to safely experience a ride.

Adventure Island® Ambassadors can offer assistance steadying a guest transferring to or from a wheelchair. They may not lift or assist in lifting anyone using a wheelchair. All guests must be able to board a ride themselves or with help from a member of their party.

The maturity level of any rider must be considered prior to riding.

## Height Requirements

Height requirements are posted at each attraction. All guests, including those using wheelchairs, must meet the height requirement.

## Casts, Braces, And Walking Boots

Guests with any cast including a forearm cast, lower leg cast, full arm cast, full leg cast, or braced arm cast may be restricted from riding certain rides and should refer to the **Individual Ride Information** section of this guide for more information.

## Prosthetic Devices and Amputations

Guests with any type of prosthesis may be restricted from riding certain rides. If permitted, riders must ensure it is properly secured before riding any ride and should refer to the **Individual Ride Information** section of this guide to determine their specific ability to ride any ride.

## Riders of Size

Riders must be able to maintain proper riding position. Safety guidelines have been designed by the manufacturer to accommodate people of average physical stature and body proportion. These guidelines may place restrictions on the ability of an individual to safely experience the attraction. Extremely large or small individuals may not be

safely accommodated by these guidelines and should refer to the **Individual Ride Information** section of this guide for more information. Our goal is to accommodate everyone who can safely participate in any of Adventure Island's® attractions.

## Ride Escorts

Ride escorts may be required due to mechanical problems, weather conditions, or power interruption. If a ride escort is required, guests may need to negotiate stairs from the highest point of the ride and down steeply inclined catwalks or steps.

To expedite ride escort process, guests requiring assistance during the ride escort may be escorted last. Only one mobility-impaired guest may ride the attraction at one time unless they are in the same family. Please inquire about specific procedures prior to boarding a particular attraction.

## Oxygen Tanks

Due to the dynamics and certain characteristics of the rides, attractions, and pools, oxygen tanks are not permitted on any ride at our water park. Oxygen tanks are permitted inside the park and may be brought into merchandise shops, restaurants, and other enclosed facilities.

## Before Experiencing a Ride:

Please Note All Safety Warnings Both Verbal and Written for Each Ride, Such As:

- Please wait for all rides to come to a complete stop before attempting to board.
- Please exercise caution in boarding each attraction, watching your head and step.
- Obey all instructions given by guards.
- Face forward and remain seated in the proper riding position. Hold on until the ride comes to a complete stop.
- Keep all parts of your body inside the ride at all times.
- Proper swimsuit is required; clothing with zippers, buckles, buttons, denim, and rivets are prohibited. Water shoes and swimming material shirts may be worn on certain attractions. Cotton, sport shorts and wetsuits are not permitted on body slides.
- You are responsible for your personal property.
- Finish food and beverages before boarding.
- No smoking while in line or while riding. Smoking is prohibited, except in designated areas, which are listed on the park map.

## Definitions

Every ride entrance lists height requirements and special instructions regarding the ride. Adventure Island® uses the following terms:

**Supervising Companion:** A supervising companion is someone who physically and mentally meets all the requirements to ride the ride themselves, is 14 years of age or older, and exhibits the maturity of someone 14 years of age or older.

**Accompanied By:** Whenever a guest needs accompaniment, the accompanying person must meet all the ride requirements, as well as assist the guest. This includes helping the guest in the boarding and exiting of the ride, assisting the guest in maintaining postural control while riding, and assisting the guest down stairs, catwalks, or ladders in case of a ride escort.

**Hand-held Infant:** A hand-held infant is a child who is unable to walk to the ride unit independently or maintain independent seated postural control.

**Functioning Extremity:** A functioning extremity is a limb over which a person has control. A prosthetic device is considered a functioning extremity.

**Ability to hold on or brace:** Ability to use one's arms to maintain a grasp on an assist bar and support one's body during normal and emergency procedures on a ride and to use one's legs to brace to maintain a seated position during the forces of the ride.

## Ridership Criteria

The ability for a disabled guest to ride certain rides or attractions is evaluated based on criteria which may include manufacturer's requirements and other safety considerations. Some of those may include the following:

**Ability to maintain the proper riding position throughout the ride.** The guest must have the body and spinal control to maintain the proper riding position throughout the ride without the aid of other people or devices and be able to maintain the proper riding position even during bumping or other characteristic movements of the ride.

**Weight distribution to allow the restraint device to function as designed.** The weight distribution of the guest's body must not interfere with any of the ride or attraction's safety and restraint devices as they were designed.

**Control of upper torso – including head and neck.** The guest must have sufficient muscle control to support their head, neck and upper torso in the proper position during the ride or attractions designed dynamic motions.

**Ability to hold on with one functioning hand.** A functioning hand is an upper extremity or prosthesis with fingers that have the ability to grasp the restraint device and exhibits good grip control; the ability to brace and is strong enough to maintain the proper riding position throughout the duration of the ride.

**Ability to hold on with two functioning hands.** Ability to hold on with two functioning hands as described above.

**Ability to hold on with one functioning arm.** A functioning arm is an upper extremity or prosthesis that has the ability to arm-grip the restraint device by wrapping the arm around the restraint device and is strong enough to allow the guest to maintain the proper riding position throughout the duration of the ride.

**Ability to hold on with two functioning arms.** Ability to hold on with two functioning arms as described above.

**Ability to brace self with one functioning leg.** Guest must have one functioning leg, natural or prosthetic, for bracing their body during the course of the ride or attraction.

**Ability to brace self with two functioning legs.** Guest must have two functioning legs, natural or prosthetic, to be used for bracing their body during the course of the ride or attraction and maintaining balance when entering and exiting a ride or attraction.

**Minimum of two functioning extremities.** Guest must have a minimum of two functioning extremities, natural or prosthetic (two arms, two legs, or one arm and one leg), to brace themselves during the ride and assist in entering and exiting the ride or attraction.

**Minimum of three functioning extremities.** Guest must have a minimum of three functioning extremities, natural or prosthetic (two legs and an arm or two arms and a leg) to allow the guest to brace in a tripod manner during the ride.

**Ability to enter and exit the ride without endangering self or others.** Guest must be able to enter and exit the ride without jeopardizing themselves or others and to assist with their own evacuation, if necessary. This may include entering through an exit or having someone aid him or her in boarding. If a guest has to be lifted in and out of a ride unit, they must be accompanied by a supervising companion who is accustomed to doing this. For the safety of ride or attraction operators and the guest, our operators are instructed not to perform this function, other than in children's ride areas.

**Appropriate Observed Conduct.** Guest must demonstrate appropriate observed conduct by indicating a willingness and ability to understand, participate in, and follow all rider requirements. Appropriate observed conduct may include but not be limited to, maintaining the proper riding position, attention to and compliance with safety instructions, proper use of restraints and safety equipment and a willingness to participate in the attraction.

In addition to the basic physical and mental requirements defined above, each ride is evaluated relative to specific temporary conditions which may prevent a guest from safely riding a specific ride. Some of the specific conditions evaluated include:

- Cervical collar or neck brace
- Broken collar bone
- Full arm cast
- Braced arm cast
- Lower arm cast
- Full leg cast
- Lower leg cast
- Bilateral abduction leg casts (brace between legs)
- The suitability of safely carrying hand-held infants on each ride

## Ride Accessibility Program (RAP):

Is designed to allow guests to fully participate and enjoy our parks while keeping in mind the safety requirements of our rides and attractions. The program was developed based on the requirements of the manufacturer and by evaluating the physical and mental attributes required to safely ride each ride and participate in our other attractions. It is our policy to allow anyone to ride our rides and enjoy our attractions so long as they meet all of these requirements and such that it does not present a potential hazard to the guests or others.

**Special Access** is designed to allow our guests to enjoy our attractions without waiting in line if the guest is not able to do so as a result of his/her disability. Special access is only available for rides listed, and is not available for shows, special events, parades, meet and greet priority access, gift shop check-out, or restaurant lines. Guests will be placed in a Virtual Queue which equals the estimated wait time at that respective location. Guests have the ability to enjoy other attractions throughout the park during this time and then proceed to the specific attraction at the estimated time.

**The following procedures will be of assistance when utilizing our Ride Accessibility Program throughout the park:**

1. Please **enroll in our Ride Accessibility Program at the Guest Services counter** where you will receive a list of the rides and attractions and the requirements for riding and enjoying each. Once you have enrolled in the RAP, you will be able to utilize our Special Access program.
2. Proceed to the ride entrance of the respective attraction with your RAP sheet and request a boarding time from the entrance ambassador. If the entrance is not staffed, you may proceed to the ride exit to request a boarding time. The time provided on your RAP sheet will be based on the current estimated wait time.
3. We suggest you take a moment to enjoy our other attractions throughout the park while you wait in the virtual queue system.
4. For our smaller attractions we ask that you proceed to the ride exit/entrance (marked with disabled access sign) and inform the ambassador that you wish to ride. You may be asked to wait 1-2 ride cycles prior to boarding.
5. Only the number of guests listed on the RAP sheet (Guest utilizing RAP and a maximum of 5 additional) are able to board with the guest needing special access. Other party members will be required to use the ride entrance.

**Please note:** The guest with the disability must ride in order for their party to take part in our Ride Accessibility Program. Guests may only have one active wait time at a time. The RAP sheet is only valid on the day it has been printed. A new RAP sheet must be printed for each visit to our park.

## Individual Ride Information

The following descriptions are designed to give you information on the type of actions caused by various rides along with their unique physical restrictions. If you enrolled in the Ride Accessibility Program, follow the directions listed under each ride below.

## Aruba Tuba

Double/Single-Rider Tube (Enclosed Slide). Hang on, this is one fast Water Slide! Go solo or grab a friend, Aruba Tuba™ is one ride you want to brave! We hope you're not afraid of the dark! This enclosed water slide will heighten all your other senses as you shoot through the dark to the bottom at a raging speed and into the splash pool. Dare it by yourself or grab a friend to join you on the double-person tube.

**Ride Access:** Guests using wheelchairs will need to transfer from their wheelchair to ascend or descend the steps of the tower. In addition to this, guests will need to enter/exit the slide start tub and transfer on to the ride tube. Guests will need to exit the slide splash pool. Maximum water depth is three (3) feet.

**Height Restrictions:** Guests must be at least 42 inches tall to ride.

**Weight Restrictions:** 300 lbs. maximum for a single tube and 600 lbs. maximum for a double tube.

**Ride Restrictions:** Riders of this attraction will be exposed to forces, speeds, and other intense features that may cause distress or injury to persons with pre-existing health conditions. Please consider these features when determining suitability for all riders. For your safety, only guests in good health should ride this attraction. Do not ride if you are currently or suspect to be pregnant, have high blood pressure, heart, neck or back problems, fear of heights, a sensitivity to strobe effects or dark enclosed places, prone to motion sickness, an unusual sensation (e.g. headache, blurred vision, nausea), have had recent surgery, or have any other medical condition that may be aggravated by the features of this attraction. Hand-held infants are not permitted on this attraction. Life vests are permitted. Aqua shoes and/or aqua socks are permitted on this attraction.

**Physical Restrictions:** Each rider must be able to remain seated upright, keeping their head upright, their back and shoulders against the tube and maintain the proper riding position at all times. Rider must have the ability to enter/exit the ride without endangering self or others. Riders must be able to brace with one (1) functioning leg & grip with two (2) functioning arms & hands capable of grasping the handhold points to maintain a safe riding posture. Riders must have full upper and full lower body control. Cervical collar or neck brace, broken collar bone, full or braced arm casts, full or lower leg casts, or braces between legs are not permitted. Wrist or forearm casts and exposed metal on prosthesis devices must be covered with a pad. Riders with any type of prosthesis device must ensure that it is properly secured and will remain in place despite forces experienced during the ride.

Please review all restrictions listed on the sign at the attraction entrance prior to riding.

**Assistance Animals:** Not permitted. They must remain at least 10 feet from the water's edge.

## Barracuda Bailout

Located on the Vanish slide tower, Barracuda Bailout is a thrilling enclosed slide for those who aren't brave enough for Vanish Point and decide to Bailout!

**Ride Access:** Guests using wheelchairs will need to transfer from their wheelchair to ascend or descend the steps of the tower. In addition to this, guests will need to enter/exit the slide start tub and transfer on to the ride. Guests will need to exit the slide runout. Maximum water depth is ten (10) inches.

**Height Restrictions:** Guests must be at least 48 inches tall to ride.

**Weight Restrictions:** 300 lbs. maximum weight per rider

**Ride Restrictions:** Riders of this attraction will be exposed to forces, speeds, and other intense features that may cause distress or injury to persons with pre-existing health conditions. Please consider these features when determining suitability for all riders. For your safety, only guests in good health should ride this attraction. Do not ride if you are currently or suspect to be pregnant, have high blood pressure, heart, neck or back problems, fear of heights, a sensitivity to strobe effects or dark enclosed places, prone to motion sickness, an unusual sensation (e.g. headache, blurred vision, nausea), have had recent surgery, or have any other medical condition that may be aggravated by the features of this attraction. Life vests, Hand-held infants, aqua shoes and/or aqua socks are not permitted on this attraction.

**Physical Restrictions:** Each rider must be able to remain seated properly and maintain the proper riding position at all times. Rider must have the ability to enter/exit the ride without endangering self or others. Riders must be able to brace with two (2) functioning legs & grip with one (1) functioning arms & hand capable of grasping. Riders must have full upper and full lower body control. Cervical collar or neck brace, broken collar bone, full or braced arm casts, wrist or forearm casts, full or lower leg casts, or braces between legs are not permitted. Exposed metal on prosthesis devices must be covered with a pad. Riders with any type of prosthesis device must ensure that it is properly secured and will remain in place despite forces experienced during the ride.

Please review all restrictions listed on the sign at the attraction entrance prior to riding.

**Assistance Animals:** Not permitted. They must remain at least 10 feet from the water's edge.

## Calypso Coaster

Double/Single-Rider Tube Flume (Open Slide). Experience an Open Flume Ride Full of Twists and Turns. This open flume water ride holds up to two passengers and is full of soaking wet fun! Hang on tight to your tube as you go through the many twists and turns on this ride. Starting from one of the highest points at Adventure Island, Calypso Coaster pushes riders through a whirlwind of spins before dropping into a splash pool. Get ready for lots of surprises along the way down!

**Ride Access:** Guests using wheelchairs will need to transfer from their wheelchair to ascend or descend the steps of the tower. In addition to this, guests will need to enter/exit the slide start tub and transfer on to the ride tube. Guests will need to exit the slide splash pool. Maximum water depth is three (3) feet.

**Height Restrictions:** Guests must be at least 42 inches tall to ride.

**Weight Restrictions:** 300 lbs. maximum for a single tube and 600 lbs. maximum for a double tube.

**Ride Restrictions:** Riders of this attraction will be exposed to forces, speeds, and other intense features that may cause distress or injury to persons with pre-existing health conditions. Please consider these features when determining suitability for all riders. For your safety, only guests in good health should ride this attraction. Do not ride if you are currently or suspect to be pregnant, have high blood pressure, heart, neck or back problems, fear of heights, a sensitivity to strobe effects or dark enclosed places, prone to motion sickness, an unusual sensation (e.g. headache, blurred vision, nausea), have had recent surgery, or have any other medical condition that may be aggravated by the features of this attraction. Hand-held infants are not permitted on this attraction. Life vests are permitted. Aqua shoes and/or aqua socks are permitted on this attraction.

**Physical Restrictions:** Each rider must be able to remain seated upright, keeping their head upright, their back and shoulders against the tube and maintain the proper riding position at all times. Rider must have the ability to enter/exit the ride without endangering self or others. Riders must be able to brace with one (1) functioning leg & grip with two (2) functioning arms & hands capable of grasping the handhold points to maintain a safe riding posture. Riders must have full upper and full lower body control. Cervical collar or neck brace, broken collar bone, full or braced arm casts, full or lower leg casts, or braces between legs are not permitted. Wrist or forearm casts and exposed metal on prosthesis devices must be covered with a pad. Riders with any type of prosthesis device must ensure that it is properly secured and will remain in place despite forces experienced during the ride.

Please review all restrictions listed on the sign at the attraction entrance prior to riding.

**Assistance Animals:** Not permitted. They must remain at least 10 feet from the water's edge.

## Caribbean Corkscrew

Enclosed Body Slides. Twist and turn down this high-speed slide that will have your hair standing on end. These two water slides will take you down a fast and twisted ride - completely in the dark! For a thrill-seeking duo, this slide is the ultimate challenge featuring endless spirals.

**Ride Access:** Guests using wheelchairs will need to transfer from their wheelchair to ascend or descend the steps of the tower. In addition to this, guests will need to enter/exit the slide start tub and transfer on to the ride. Guests will need to exit the slide runout. Maximum water depth is eight (8) inches.

**Height Restrictions:** Guests must be at least 48 inches tall to ride.

**Weight Restrictions:** 300 lbs. maximum weight per rider

**Ride Restrictions:** Riders of this attraction will be exposed to forces, speeds, and other intense features that may cause distress or injury to persons with pre-existing health conditions. Please review all restrictions listed on the sign at the attraction entrance prior to riding.

**Assistance Animals:** Not permitted. They must remain at least 10 feet from the water's edge.

## Castaway Falls – Interactive Play Area

What a place to get marooned for a while! Get ready to wash ashore at Castaway Falls, our brand-new interactive splash and play area. With multiple levels and more than 100 distinct play elements, it's an ideal spot for kids of all ages—even the littlest adventurers! Jump in and explore tons of exciting experiences, from three giant tipping buckets that dump over 1,300 gallons of water combined to four thrilling slides, soakers, flow pipes, hose and spray jets, water curtains, tipping troughs, and much more. These falls are overflowing with splashy fun for the whole family!

**Ride Access:** Accessible to mobility impaired guests, including a transfer space, a transfer platform with grab bars, and transfer steps. Guests using wheelchairs will need to transfer from their wheelchair to ascend or descend the steps of the play structure. Water depth ranges from zero (0) to six (6) inches.

**Height Restrictions:** None

**Weight Restrictions:** None

**Ride Restrictions:** Riders of this attraction will be exposed to forces, speeds, and other intense features that may cause distress or injury to persons with pre-existing health conditions. Please consider these features when determining suitability for all riders. For your safety, only guests in good health should ride this attraction. Do not ride if you are currently or suspect to be pregnant, have high blood pressure, heart, neck or back problems, fear of heights, a sensitivity to strobe effects or dark enclosed places, prone to motion sickness, an unusual sensation (e.g. headache, blurred vision, nausea), have had recent surgery, or have any other medical condition that may be aggravated by the features of this attraction. Hand-held infants are permitted on this attraction but must be accompanied by a supervising companion, and hand-held infants are not permitted on the slides. Aqua shoes and/or aqua socks are permitted on the attraction but are not permitted on the slides. Life vests are permitted and recommended for weak swimmers, non-swimmers, and those under 42 inches.

**Physical Restrictions:** Each rider must be able to sit upright and maintain the proper riding position including control of their upper torso, head, and neck at all times. Rider must have the ability to enter/exit the attraction without endangering self or others. Riders must have full upper and full lower body control. Cervical collar or neck brace, broken collar bone, full or braced arm casts, full or lower leg casts, or braces between legs are not permitted. Wrist or forearm casts and exposed metal on prosthesis devices must be covered with a pad. Riders with any type of prosthesis device must ensure that it is properly secured and will remain in place despite forces experienced during the ride.

Please review all restrictions listed on the sign at the attraction entrance prior to riding.

**Assistance Animals:** Not permitted. They must remain at least 10 feet from the water's edge.

## Castaway Falls – Children’s Slides

What a place to get marooned for a while! Get ready to wash ashore at Castaway Falls, our brand-new interactive splash and play area. With multiple levels and more than 100 distinct play elements, it’s an ideal spot for kids of all ages—even the littlest adventurers! Jump in and explore tons of exciting experiences, from three giant tipping buckets that dump over 1,300 gallons of water combined to four thrilling slides, soakers, flow pipes, hose and spray jets, water curtains, tipping troughs, and much more. **Ride Restrictions:** Riders of this attraction will be exposed to forces, speeds, and other intense features that may cause distress or injury to persons with pre-existing health conditions. Please consider these features when determining suitability for all riders. For your safety, only guests in good health should ride this attraction. Do not ride if you are currently or suspect to be pregnant, have high blood pressure, heart, neck or back problems, fear of heights, a sensitivity to strobe effects or dark enclosed places, prone to motion sickness, an unusual sensation (e.g. headache, blurred vision, nausea), have had recent surgery, or have any other medical condition that may be aggravated by the features of this attraction. Life vests, Hand-held infants, aqua shoes and/or aqua socks are not permitted on this attraction.

**Physical Restrictions:** Each rider must be able to remain seated properly and maintain the proper riding position at all times. Rider must have the ability to enter/exit the ride without endangering self or others. Riders must be able to brace with two (2) functioning legs & grip with one (1) functioning arms & hand capable of grasping. Riders must have full upper and full lower body control. Cervical collar or neck brace, broken collar bone, full or braced arm casts, wrist or forearm casts, full or lower leg casts, or braces between legs are not permitted. Exposed metal on prosthesis devices must be covered with a pad. Riders with any type of prosthesis device must ensure that it is properly secured and will remain in place despite forces experienced during the ride.

Please review all restrictions listed on the sign at the attraction entrance prior to riding.

**Assistance Animals:** Not permitted. They must remain at least 10 feet from the water's edge.
